

Profile

Computer Science and Mathematics undergraduate at HKUST with academic interests in statistical machine learning, learning theory, and reinforcement learning. Current work includes research with Prof. Nian Si, independent benchmark work on LLM agents with Prof. Qifeng Chen, and a part-time internship at the Hong Kong Observatory.

Education

|                     |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

| Sep 2025 – Dec 2025 | <b>UROP Research Assistant</b> , Zeto Project, HKUST<br><i>Hong Kong</i> <ul style="list-style-type: none"><li>Supervisors: Prof. Dimitris Papadopoulos and Dr. Jiajun Xin.</li><li>Conducted comparative analysis of UTXO and account-based models for blockchain protocol research.</li><li>Studied cryptographic foundations and their application to protocol validation.</li><li>Assisted with research documentation, data sorting, and project coordination.</li></ul> |

Projects

- 2026
- HKO Flight Weather Dashboard**, aviation weather data dashboard
  - Dashboard for HKIA flight situational awareness using public flight, METAR, and TAF data.
  - Project: [github.com/dylanluchenyu/HKO-Flight-Weather-Dashboard](https://github.com/dylanluchenyu/HKO-Flight-Weather-Dashboard).
- 2026
- Codex Completion Sound**, personal Codex utility
  - Small Codex skill that plays a completion sound when a Codex task finishes.
  - Project: [github.com/dylanluchenyu/codex-completion-sound](https://github.com/dylanluchenyu/codex-completion-sound).
- 2025
- OpenGVLab / ScaleCUA Contribution**, open-source computer-use-agent project
  - Contribution in ScaleCUA: data pipeline and cross-platform workflow components in the open-source codebase.
  - Project: [github.com/OpenGVLab/ScaleCUA](https://github.com/OpenGVLab/ScaleCUA).

Teaching Experience

- Sep 2025 – Dec 2025
- Undergraduate Teaching Assistant**, COMP2711 Discrete Mathematics, HKUST  
*Hong Kong*
  - Provided academic guidance on core discrete mathematics concepts.
  - Assisted with assignment arrangement and course support.
- 2026.03
- Undergraduate Teaching Assistant**, COMP4900 Graduation Requirements, HKUST  
*Hong Kong*
  - Helped students understand graduation requirements.
  - Assisted with seminar registration checks and course administration.

Awards and Honors

- May 2026
- Champion, 11th HKUST Undergraduate Mathematics Competition, Junior Division.
- Apr 2025
- Champion, 10th HKUST Undergraduate Mathematics Competition, Junior Division.
- Fall 2024
- Dean's List, HKUST.
- Spring 2025
- Dean's List, HKUST.
- Fall 2025
- Dean's List, HKUST.
- Spring 2026
- Dean's List, HKUST.
- 2024–2025
- HKSAR Government Scholarship Fund - Talent Development Scholarship.
- 2025–2026
- University's Scholarship Scheme for Continuing Undergraduate Students.
- Sep 2022
- First Prize, National High School Mathematics Olympiad (Preliminary), Chinese Mathematical Society.  
Merit Award, 2nd Pi Day Challenge, Qiuzhen College, Tsinghua University.
- Aug 2023
- Top 99% National Ranking, Yau Shing-tung Math Test.

Skills

Programming: Python, C/C++, JavaScript.  
Research areas: Statistical machine learning, learning theory, reinforcement learning.  
Languages: Mandarin Chinese (native), English (proficient).

Extracurricular Activities

- Jul 2026
- Completed Level 1 & 2 Certificate Course in Dinghy Sailing (DS061), HKUST Water Sports Center.
